Dear Mr. Barnett:

Re: Industrial Waste Disposal Facilities
Wabash Paper Coating, Inc.
Wabash, Indiana

You are hereby notified that the State Health Commissioner of the State of Indiana has, this 30th day of March, 1966, approved the plan for waste disposal facilities for disposal of paper coating wastes at the Wabash Paper Coating, Inc., Wabash.

The plan proposes the following:

1. A 6-inch plant sewer
2. A 2,000-gallon holding tank
3. A 50-gpm diaphragm pump
4. A 1,000-gallon tank trailer

The daily waste volume is approximately 150-300 gallons. The wastes will be stored in the holding tank and hauled to the City of Wabash's sanitary landfill.

The plan is approved with the following conditions:

1. That approval be obtained from the City of Wabash for disposal of the wastes on the sanitary landfill.
2. That should the wastes cause pollution problems at the sanitary landfill, a new site will be selected.

RECEIVED

MAR 31 1966

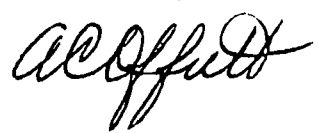

-2- WABASH CO. BOARD OF HEALTH

Mr. Milton Barnett, Jr.

March 30, 1966

The plan was prepared by Hawkins & Associates, Consulting Engineers, Lafayette, and submitted for review on February 9, 1966.

Sincerely,

A. C. OFFUTT, M. D.
STATE HEALTH COMMISSIONER
INDIANA STATE BOARD OF HEALTH
